Certification Expires: June 1, 2005

NGSP Steering Committee Chair

NGSP Network Coordinator

SRL director/ supervisor

To ensure accurate and precise A1C results, an independent program called the National Glycohemoglobin Standardization Program was instituted. To be NGSP-certified all A1C measuring devices, including those in a lab, must meet the same, exacting measurement standards. Because A1cNow® is NGSP-certified, you're assured its reading is as accurate as a lab's.
